Your Partners In Excellence

OUR COMMITMENT

- We will ensure that every office receives the best care and service possible.
- We will provide our clients with the most comprehensive assessment of each case by utilizing the technical expertise of our highly trained specialists.
- We will strive to become our clients' full service laboratory of choice by providing technical support and educational training.
- We will deliver superior restorations that are precisely crafted and aesthetically valued.
- We will continue to be at the forefront of dental technology through research and development.

IMAGE DENTAL
LABORATORY

33 QUARRY RIDGE ROAD

Over 40 Years of Success

A new era in dental technology commenced when Image Dental Laboratory began operations in 2006. Created from the combined vision of husband and wife team Jennifer Fowler and Ali Khonsari, they sought to build on the guiding principles of quality, consistency, and communication established by Mr. Eric Fowler, Jennifer's father, when he founded Central Dental Laboratories in 1968.

The mandate has always been to work exclusively with well-respected suppliers and manufacturers in order to obtain the highest quality materials. The laboratory set a standard for delivering products that exceeded client expectation. Today, Image Dental Laboratory continues these traditions of attention to detail and dedication to the needs of its clients. The revolutionary new laboratory facilitates the process of knowledge sharing which not only benefits the skilled technicians, but also the doctors, their teams, and, ultimately, the patients.

Image Dental Laboratory maintains an open-door policy, inviting doctors and their teams to tour the state-of-the-art facility and meet the laboratory's technicians, your partners in dental excellence.

The objective for the next 40 years is to continue to be leaders in the industry by providing only the highest quality products—consistently—and to stay on the forefront of technological advancements while ensuring clients receive the superior service they deserve.

Innovation Through Education

It is imperative for doctors, technicians, and team members to keep informed of the latest advancements in dental technology. The centrepiece of Image Dental Laboratory's Continuing Education Centre is its slate of innovative and fascinating programs designed to be beneficial to you, your staff, and your practice. The facility features impressive architectural details and is equipped with the latest technology. Please contact Ali Khonsari for more information pertaining to upcoming continuing education programs, lecture / seminar schedule, or to reserve the space. For your convenience, the centre is open year-round and is capable of hosting special events.
